6. Please give details of why you consider the Local Plan Part 2 (as proposed to be modified by the Main Modifications) is not legally compliant or is unsound on this matter. If you wish to support the legal compliance or soundness of the Local Plan Part 2: Sites and Development Management, please also use this box to set out your comments.

Overall Southampton City Council welcome and consider 'sound' the new policy for Mar7: Marchwood Military Port, which now clearly safeguards the port for port use.

We consider the policy to be unsound in two detailed respects:
- Lack of reference in the policy to the national importance of the port's capacity. A reference is needed in the policy to be consistent with the National Policy Statement on Ports; and to ensure the policy itself balances different issues in the appropriate way. At present a reference to the national importance of the port only appears in the supporting text, and only in the context of the current military port. This text should recognise that the ability of the facility to provide for a wider range of port activities in the future is also of national importance.
- The last paragraph of the policy needs amending to clarify it applies to non port related proposals outside of the port, to avoid confusion.

(Continue on a separate sheet/expand box if necessary)

7. Please set out what change(s) you consider necessary to make the Local Plan Part 2 legally compliant or sound on this matter. Having regard to the text you have identified at 5 above where this relates to soundness. You will need to say why this change will make the Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of the relevant policy or text. Please be as precise as possible.

Amend Policy Mar 7:

Start of 3rd para.: "Development proposals will need to balance making the most of this nationally important port infrastructure with..."

4th para.: "In addition to the above, any non port-related proposals outside of the port must be compatible with the port and port-related activity and not prejudice the effective utilisation of the port and rail facilities of the site."

Amend para 3.89:

"The national importance of the port facilities at Marchwood Military Port, both for the current military use and any future general port use, is recognised..."
