

Toolkit Guide Ten: Training Request Form

It is planned that training to support the use of the Toolkit will be available as and when needed. Use this form to register that you would like to attend training. Once we have six or more people on the list we will arrange a half day session. The training will be provided jointly by Community First New Forest and New Forest District Council.

The training session will talk you through how to use the Toolkit, discuss how it can work best in your community and identify any further support you may need.

I would like to book a place on the next Community Facility Toolkit training session
