

Highspeed Broadband Statement – Orchard Gate, Dibden Purlieu

The Ofcom broadband coverage checker indicates that the application site can be served by the Open Reach network. The property is indicated as being capable of being served by standard and superfast broadband with up to 49 Mbps download speeds.

The intention is to provide each of the proposed dwellings with the option of superfast broad prior to occupation of the future resident, however it will be down to the individual purchasers to select their preferred internet service provider.
