Subject: ORCHARD GATE. NOADS WAY, DIBDEN PURLIEU

You don't often get email from josephine.chorlton@outlook.com. [Learn why this is important](#)

To whom it may concern

I understand a Melody Roberts, like myself, feels strongly about the possibility of a bat colony at Orchard Gate.

My husband and I only live a few doors away from Orchard Gate and we have bats come in our garden of an evening - and our next-door neighbour's garden.

Bearing in mind the habitat at the proposed development, there is a VERY STRONG possibility that there is a bat colony there too.

It has been mentioned in previous Minutes/correspondence - I have read it in black and white myself.

Please can someone take time to investigate a.s.a.p.

Yours sincerely,

Josephine Chorlton (Mrs)
